

Cochrane Insurance Medicine (CIM) is a Cochrane field with a focus on knowledge translation to get research findings to the point of decision making (insuremed.cochrane.org). Insurance medicine provides insurers with health-related recommendations. CIM is integrated in the academic competence center for evidence-based insurance medicine, EbIM, with its focus on clinical research with relevance for care. Located at the Department of Clinical Research, EbIM collaborates on a local, national and international level.

Starting March 1st or by arrangement, we offer the following position.

Researcher / coordinator 50-70%

Your Tasks

Located at the field's interface, the successful candidate will reach out to both, research and dissemination:

- Participate in writing systematic reviews and in research on knowledge translation
- Translate and communicate research results in lay language
- Participate in training activities on systematic reviews
- Support the board of directors of CIM and take responsibility for the website
- Ensure communication within CIM, within Cochrane and to the insurance medicine community.

Your Profile

- Training in a medical or allied discipline (physician, rehabilitation), level Master degree including some formal training in research methodology
- Previous experience with Cochrane; experience in writing systematic reviews
- Proficiency in German and English, French would be an asset
- Very good writing skills and fluent use of electronic communication tools
- Willingness to travel internationally and to learn about insurance medicine and health systems
- 2 to 3 years of professional experience (compulsory)

We offer

- An exciting position in a dynamic international team
- A multi-faceted and varied role in an academic environment
- Exciting training and development opportunities
- Attractive terms of employment
- A family friendly personnel policy
- A campus in a central location with good transport links
