Program DAY 1

Tuesday, 14 June 2022 (at University of Zurich, Rämistrasse 59)

A 13:00 – 14:10 Welcome, some highlights of SSPH+ and a first look into the future			
A1	13:00-13:15	Welcome	Audience: All Keynote/Moderation: Milo Puhan G01
A2	13:15-13:50	Highlights and new SSPH+ initiatives	Audience: All Keynote/Moderation: Nino Künzli et al. G01
A3	13:50-14:10	Outlook to the future: Fostering SDGs in SSPH+?	Audience: All Keynote/Moderation: Frank Rühli, Dean of Medical Faculty, University of Zurich G01
B 14:10-16:00 Parallel Sessions B			
B1	14:10-15:00	Win-wins of collaboration between universities of applied sciences and universities ⓘ	Audience: All Keynote/Moderation: Luca Crivelli & Julia Dratva G01 session guide
B2	14:10-15:00	Strengthening the next generation of scientists ⓘ	Audience: Postdocs Keynote/Moderation: Muaamar Al-Gobari & Antoine Flahault E12 agenda Webex link to join online
B3	14:10-16:00	PhD students' meeting	Audience: PhD students Keynote/Moderation: Thomas Abel & Ann Walser G15
	15:00-15:30	COFFEE BREAK - 30'	Lichthof

<https://ssphplus.ch/en/calls-events/events/faculty-meeting-program-2022/>

B4 15:30-16:00

**Convene in plenary and
presentation of group work**

Audience: **All**

Keynote/Moderation: **Nino Künzli**

G01

C 16:00-17:00

Citizen Cohort

C1 16:00-17:00

Citizen Cohort - on the move

Audience: **All**

Keynote/Moderation: **Nicole Probst-
Hensch et al.**

19:30-

DINNER (upon invitation only) 

Session A2.

SSPH+ Updates & Highlights

1 General Developments

2

Inter-
university
research

3

Teaching
&
Education

4

Science to
Practice &
Policy

Unanimously approved by Foundation Board

SSPH+ Strategy 2023-2027

Moving Health Forward

SSPH+ Financial Concept 2023-2027

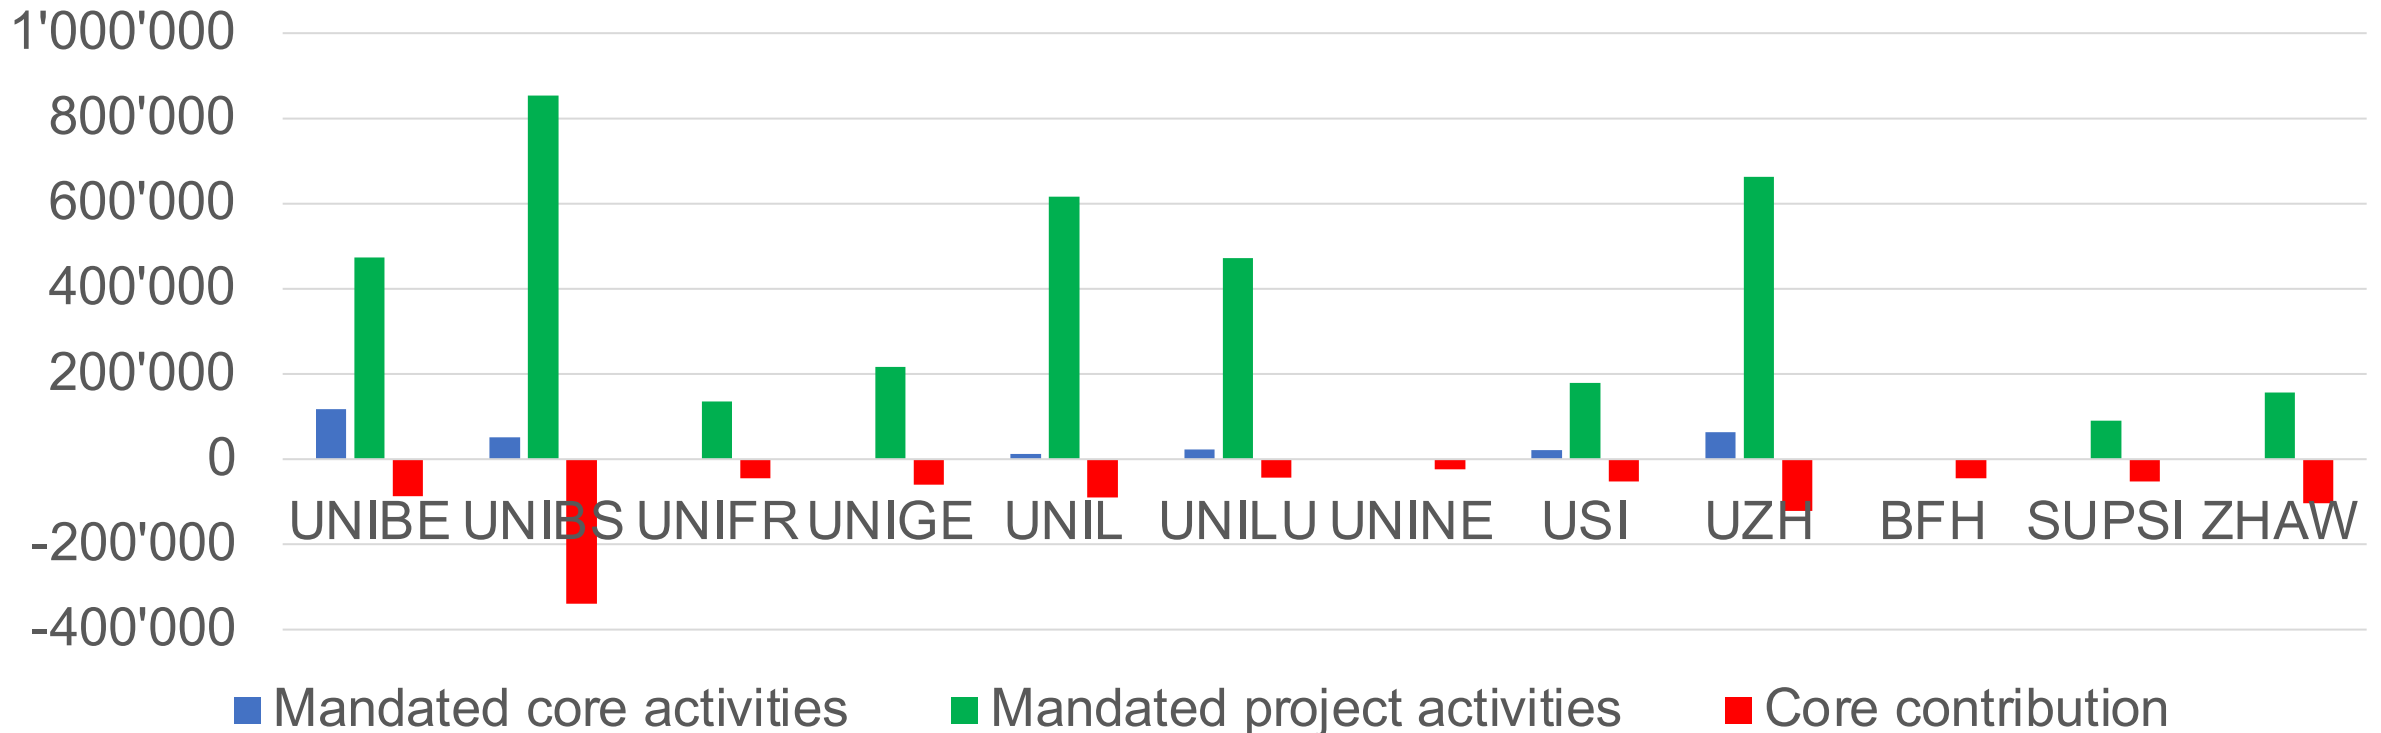

Approved by the SSPH+ Foundation Board at the meeting on 6 May 2022

1. Again based on the number of SSPH+ Faculty members (enumerated Feb 2022)
2. Annual Core contribution remains fixed for 5 years (no matter how faculty changes)

University	Core distribution 2023-2027					
	number of faculty members	faculty in %	annual core fixed fee (CHF)	annual core per-capita (CHF)	TOTAL CORE (CHF)	total core in %
Basel	59	27%	22'000	195'236	217'236	22%
BFH	7	3%	22'000	23'164	45'164	5%
Fribourg	8	4%	22'000	26'473	48'473	5%
Geneva	32	15%	22'000	105'891	127'891	13%
Lausanne	30	14%	22'000	99'273	121'273	13%
Luzern	8	4%	22'000	26'473	48'473	5%
Neuchâtel	9	4%	22'000	29'782	51'782	5%
SUPSI	8	4%	22'000	26'473	48'473	5%
USI	7	3%	22'000	23'164	45'164	5%
ZHAW	10	5%	22'000	33'091	55'091	6%
Zurich	42	19%	22'000	138'982	160'982	17%
Total	220	100%	242'000	728'000	970'000	100%

2021: SSPH+ provided 4x larger funds to SSPH+ network partners than “Core Contributions” received from the Foundation Universities

2021 flows of core and project money

289k + 3.85 Mio = 4.14 Mio vs. 1.06 Mio

Also approved by Board: procedures of Directorate election

Examples of “Strategic Actions 2023-27”

A7 | **UMBRELLA FOR PROJECTS OR DOMAINS:** With the increasing demand of SSPH+ Faculty members, authorities and funders to anchor inter-university projects in the SSPH+ Foundation, guiding principles for project placements under the umbrella of SSPH+ need to be defined to foster, facilitate and harmonize related operations, governance, responsibilities and terms.

Key partner networks now discussing “SSPH+ Umbrella” as sustainable solution:

- **Swiss Learning Health System (2024+)**
- **Health Services Research (post-NRP74 – 2024+)**

E) Communication of public health sciences to the public

E1 | **Communication:** To successfully implement “public health sciences communication” as a new transversal strategic domain in support of the three pillars, SSPH+ needs a concept defining the specific goals, the methodology, direction and stakeholders (target audience), governance, and a specific budgeting, funding, monitoring and evaluation concept. The concept needs to integrate communication lessons learned from Corona Immunitas as well as the SSPH+@Expo project, support the three pillars, in particular the linking of science to policy and practice, and clarify the role in lobbying.

JOIN PARALLEL SESSION F3 TOMORROW (Chair: Suzanne Suggs)

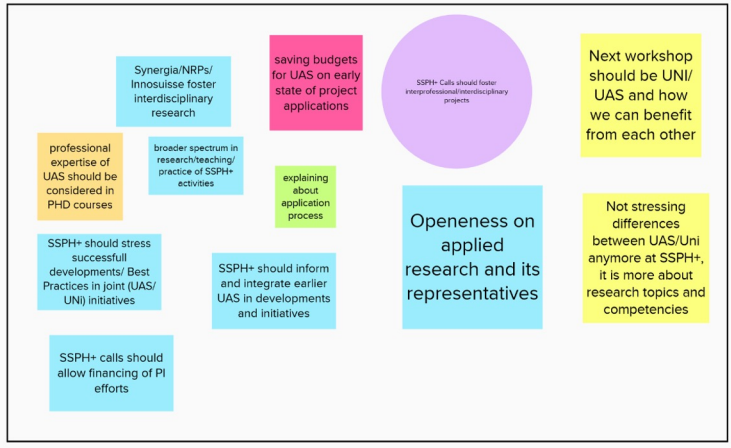

Communication of science to the public – how to achieve this goal

B1 14:10-15:00

Win-wins of collaboration between universities of applied sciences and universities ⓘ

Audience: All
Keynote/Moderation: Luca Crivelli & Julia Dratva

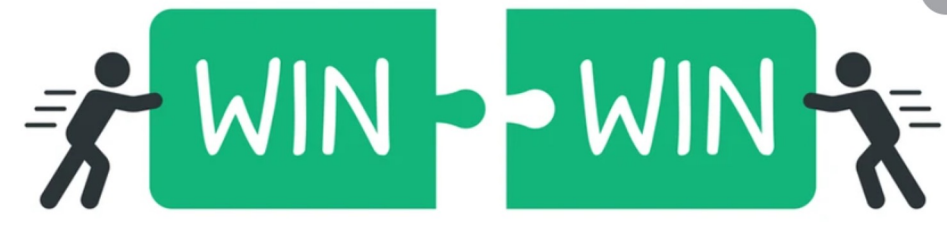

G01 session guide

3 Question

How can I personally as faculty member/fellow contribute to and benefit from an involvement in SSPH+?

- difficult for team members to interact with SSPH+ and to profit from the connections. How do they get involved?
- promote the SSPH+ to the phd students from UAS. Often no awareness
- propose more projects that are interesting for UAS
- UAS PhD have more complex structures with Universities. Support these PhD students in organisation but also potential disagreements and uncertainties and clarification of responsibilities.

INSTITUTIONAL BIO-DIVERSITY

Q1: How SSPH+ can benefit from

Recommendation	
Being (even) more open to applied research and its constituent methods, bottom-up generation of research questions	
Fostering more interprofessional / interdisciplinary projects	
More applied research with the involvement of industrial, gov	
Higher visibility of SSPH+ with respect to institutions in case of affiliation	
Promoting interdisciplinary research projects mutually between (Sinergia/NRPs/Innosuisse)	
Including UAS-expertise in PhD training/courses and in public health*	
Diversification and pragmatism of research projects via inclusion of health care professional grant writers	
Mutual cross-feed through better bridging of health care academia and practice.	

Q2: How to deal with differences between UAS and Universities?

Recommendation	Rating
By supporting UAS in the early stages of PhD application processes and in finding the appropriate main supervisor	
By defining joint supervision standards and helping UAS in structuring PhD supervision and in resolving potential disagreements	
By funding supervisors' effort as UAS Professors	
By launching easy-entry events to get involved in the SSPH+ network and build relations mutual advantage	
By facilitating the access to PhD programs for young scholars with a UAS Master degree (Could SSPH+ help in the design of a bridging pathway?)	
By providing trainings to strengthen the PhD supervision expertise of UAS Professors	
By facilitating the access of UAS faculty members to act as PhD supervisors (e.g. Titular professor)	
By organizing speed dating events with other faculty members to strengthen the network and help disseminate available expertise	

Q3: What do UAS expect from SSPH+?

Recommendation	Rating
Embrace a broader spectrum in public health research, teaching and practice	
Launch specific calls to foster interprofessional and interdisciplinary collaboration	
Promote successful developments and best practices in joint (UAS-universities) initiatives	
Timely integration of UAS in SSPH+ initiatives (allocating parts of the budget respectively appropriate). Due to part-time appointments, UAS faculty need longer time to react to tenders, etc.	
Better promotion of SSPH+ in the UAS community of PhD students	
SSPH+ would be the right platform for national collaborative initiatives (e.g. Corona Immunitas, NRP 74 "Smarter Health Care", etc.)	
A better explanation of the application process for inter-university projects	
Relaxing evaluative differences between Universities and UAS in future. It's really about complementarity in competences and research topics	
Calls should not exclude the possibility to fund PI's activity (financing is an additional constraint for UAS professors)	
To plan another workshop and invite faculty members from both Universities and UAS to share mutual expectations and possible contributions	
Support the academic development of health professions and health professionals	
Increase visibility and dissemination of the database of faculty knowledge	

B2 14:10-15:00

Strengthening the next generation of scientists

B) Fostering research

From: "Strategic Actions 2023-27"

- B1** **CITIZEN COHORT:** SSPH+ assembles all prime experts in the field of population-based research. As demonstrated with Corona Immunitas, the network is highly efficient and dedicated in collaborative efforts to lead national multi-centre research projects under a shared methodological vision and rigor. Thus, SSPH+ is uniquely positioned to take the leadership in the planned national Citizen Cohort. The SSPH+ joins all forces to collaborate in developing and leading this research infrastructure of utmost relevance for the future of public health sciences in Switzerland.

SSPH+ / ETHZ-Lecture Series 2022

Moderator: Dr. Emily Reeves, SSPH+

- **13 online lectures** from YOU...
- **12 SSPH+ partner institutes and ETHZ**
- **Watch all the lectures here:**

OUTLOOK:

- **Strengthen Public Health curriculum of BA in Medicine at ETH (Emiliano Albanese with SSPH+)**
- **Re-use lectures**

Joint Public Health Program

SSPH+ / Swiss Mexican Chambers of Commerce

1st Edition – a big success. Trained 60 civil servants, industry leaders and academics (Mexico)
6 lectures of 2 hours each – 8 SSPH+ faculty teachers

Proposed topics 2nd edition – 2022

(to be expanded to LATAM countries, 200 students)

- Innovation technology in healthcare
- non communicable diseases,
- digital health,
- management of health care system
- patient groups for health care decision making

**Science to
Practice &
Policy**

SSPH+ & Covid-19

- Many of you constantly engaged on various public channels !
CONGRATULATIONS
- Many served in Swiss National COVID-19 Science Task Force

THANK YOU VERY MUCH

SSPH+ COVID-19 platform

(coordination: Jorgen Bauwens):

- FOPH-funded mandate
- Support informed decision making
- Reviewing of scientific literature on
 - 13 topics defined by FOPH - 7 still running □
 - 62 reports FROM YOU to FOPH

OUTLOOK 2023-27: Policy dialogue

Vaccines
Border measures
Long-Covid
WHO Vaccines
Eating disorders
Children/youth
Immunological surveillance

D4	DIALOGUE: In collaboration with SLHS, a+ and other constituencies, SSPH+ will continue to strengthen the dialogue between research, policy and practice. Besides capacity building efforts, SLHS and SSPH+ will promote the development of policy briefs and the conduct of stakeholder dialogues within SSPH+ to increase knowledge translation activities that foster exchange between research, policy and practice.

 - **Swiss Public Health Conference 2022**
 - **Swiss-Mexican Chamber of Commerce Public Health Training Program**

- Running for 2 years, without major problems
- Results continue to be of high interest both for Public & Policy makers
- Additional studies still ongoing (CoVCO Basel, ZSAC, Ciao Corona, SEROCO-V-POP)

Wealth Inequality Solutions to Public Health Challenges – A Julius Bär Foundation (JBF) SSPH+ collaboration

2-stage call for projects (up to 3 years of funding)

Stage 1 (June-August 2021) led by SSPH+ (mandate of JBF)

- Launched global international open call
- Organized independent review process for the 38 applications
- Submitted reviews with comments to JBF

Stage 2: (as of August 2021) Led by JBF (no involvement or role of SSPH+)

- Online workshop with the 20 top-rated applicants
- Internal and external review of Top 10 pre-selected by JBF
- Top 5 got further review (external expert, Rwanda)
- JBF trained Top-3 to present to JBF Board representatives, other foundations and investors (3.5.2022)
- JBF Board took decision to fund ONE
- JBF might assist the others in finding other funders

Winner, selected by JBF Board

Partners in Health Malawi with **Teen Clubs for HIV Positive Adolescents**

PI: Alexandra Kulinkina, Swiss TPH

Institutional collaborations:

Partners in Health (PIH) with
Abwenzi Pa Za Umoyo (APZU),
Neno District, Malawi and

C1. Citizen Cohort- on the move

16:00-16:55

Lead: Nicole Probst-Hensch

Short intro (context & role of SSPH+): Nino Künzli

Session guide available on the SSPH+ faculty meeting program:

<https://ssphplus.ch/en/calls-events/events/faculty-meeting-program-2022/>

SESSION C1

Swiss Citizen Cohort & Biobank (CC&B): CONTEXT

- Initiative in progress since >10 years, with major milestones
- Now under national discussion: 3 complementary pillars of research infrastructures – namely
 - Swiss Personalized Health Network SPHN,
 - National Coordination Platform Clinical Research (CPCR)
 - National Citizen Cohort & Biobank (CC&B)

Needed and soon to come: CC&B White Paper:

- Led by public health community
- Ad-hoc steering committee (writing group) formed
- Broad online feedback consultation (end of June to end of August)
- Formal “endorsement letters” to be organized from relevant constituencies
- White Paper to be published in fall (in the SSPH+ journal PHR)
- Executive summaries in D, F, I, E
- Continued exchange with YOU all, FOPH, SERI and others

Ad hoc Steering and Writing Group of the Swiss Citizen Mega Cohort & Biobank White Paper:
(**bold = ad hoc steering commission**)

1. **Nicole Probst-Hensch** (Chair) *, Swiss TPH and Uni Basel
2. **Murielle Bochud** *, Unisanté, Uni Lausanne
3. Luca Crivelli *, SUPSI & USI
4. Julia Dratva *, ZHAW
5. Antoine Flahault *, Global Health Institute, Uni Geneva
6. Daniel Frey (Board Swiss Society for Public Health)
7. **Nino Künzli** *, SSPH+ and Board Swiss Society for Public Health
8. **Milo Puhan** *, EBPI Uni Zurich
9. L. Suzanne Suggs, USI *
10. **Corina Wirth** (Swiss Society for Public Health)

* = SSPH+ Faculty members

Organisation of SESSION C1

Swiss Citizen Cohort & Biobank (CC&B)

- Intro of CC&B by Nicole Probst-Hensch
- Group discussion about the major research topics to be covered by Swiss CC&B - until 16:55
- 1 rapporteur per group makes discussion notes
- Rapporteur sends file to snocera@ssphplus.ch
- No plenary summary discussion -> all inputs will be synthesized
- Discussion & prioritization process will continue with all of you (fall 2022)

PLEASE BE BACK IN TIME 16:55

<p>Group 1, (room RAA-E-08): Moderator&Rapporteur: Suzanne L.Suggs</p>		<p>Group 3, (room RAA-E-21): Moderator&Rapporteur: Corina Wirth</p>

D1. SSPH+ ScienceFlashTalk

Moderation: Dr. Emily Reeves, SSPH+ and Prof. L. Suzanne Suggs

Objective of this SSPH+ training offer

To strengthen skills of PhD students to capture attention for public health sciences from a general audience ...
in 3 MINUTES

Coaches: Alexis Puhan, skillbuild inc. and Kathrin Puhan-Hensch, you advance Ltd.

How it works:

- Preparation of a 3-minute flash talk about a scientific topic related to PhD thesis
- 1 hour training call with Alexis Puhan
- Online workshop with Kathrin Puhan-Hensch and individual coaching
- Student delivers a video -> evaluation by a jury of communication and PR experts
- Students of best 8 (out of 13) videos present 3-minute talk at 1 of 2 events:
 - **TODAY** at SSPH+ Faculty Meeting in Zurich on 14 June 2022
 - Swiss Public Health Conference in Bern on 14 September 2022
- **Audience** votes on best presentation

Meet the SSPH+ ScienceFlashTalk Jury 2022:

Jean-Claude Gerber

Jean-Claude Gerber has completed history, English literature and journalism at the University of Zurich. Since 2005 he works as a journalist at 20 minutes. Since 2013 he has been head of the department "Wissen/Digital".

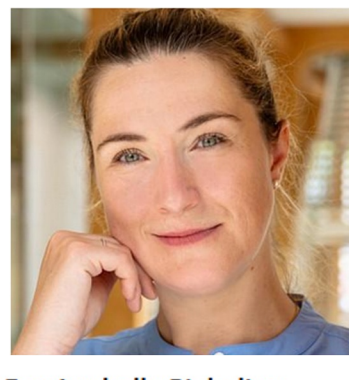

Gregor Lüthy

Gregor Lüthy studied literature and cultural journalism. He has been Head of Communications and Campaigns since 2017 and Member of the Executive Committee of the Federal Office of Public Health.

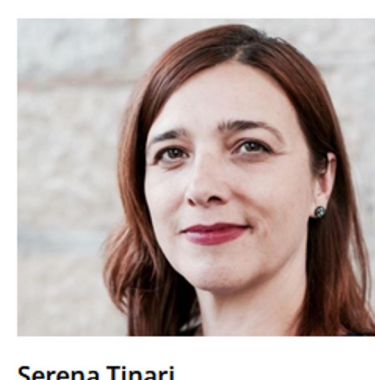

Isabelle Moncada

Isabelle Moncada works for RTS1, where she is responsible for the presentation and production of the health show 36.9°. 36.9° is a news magazine that airs every Wednesday at 8.10 pm - every three weeks - to present reports and surveys in the area of health medicine.

Fee Anabelle Riebeling

Fee Anabelle Riebeling first studied applied literature and cultural studies, journalism and sociology. She then completed a Master of Arts in Journalism at the Hamburg Media School and the maz, the Swiss School of Journalism. After graduating in 2009, she was employed as a science journalist at scitec-media. In 2014, she moved to 20 Minuten in Zurich, where she works as an editor in the knowledge department. She continues to work freelance for various print and online newspapers, where she reports on her travels, among other things.

Serena Tinari

Serena Tinari is an investigative journalist that specializes at health and medicine. She realized dozens of documentaries for the Swiss public broadcaster (Falò e Patti chiari RSI, Rundschau SRF, 36.9 RTS) and in 2015 along with fellow Catherine Riva founded www.re-check.ch, a nonprofit agency to investigate and map public health affairs and issues. Re-Check' work is at the crossroads between Evidence-Based Medicine (EBM) and investigative journalism (training, researches, publications). Serena is a member of the International Consortium of Investigative Journalists (ICIJ) and an advisor to Journalismfund.eu and irpi.eu. She is the chair of investigativ.ch, the Swiss organization for investigative journalism.

Welcome to the SSPH+ ScienceFlashTalk Competition!

Aegerter Andrea Martina,
Zurich University of Applied
Sciences ZHAW and University
of Zurich UZH

A multi-component intervention
reduces neck pain-related work
productivity loss

Supervisors:

Markus Melloh

Armocida Benedetta, Institut
de santé globale (ISG),
University of Geneva

The burden of non-communicable
diseases in adolescents in 28
European countries, 1990-2019: A
Systematic Analysis of the Global
Burden of Diseases, Injuries, and
Risk Factors Study.

David Beran

Bürgler Alexandra, Swiss TPH

More than “just a sneeze” – The
health effects of pollen

Marloes Eeftens

Yin Ting Lam, ISPM Bern

Time to focus on the upper airways
in Primary Ciliary Dyskinesia

Ben Spycher
