

## **SSPH+ Faculty Members and Fellows Regulation**

*Under the proposal of SSPH+ Directorate and  
Based on article 9 paragraph 2 littera a of its Statutes,  
The SSPH+ Foundation Board adopts the following regulation:*

### **Preamble**

It is in the mission of SSPH+ to

1. Reinforce the identity of public health as an interdisciplinary and inter-professional field of science, and to
2. Promote and maintain a skilled public health workforce at the local, national and international level through high quality education and training.

SSPH+ is able to achieve those objectives only thanks to full support of a solid network of experts exercising a strong leadership in their field, both in terms of training and research.

Their valuable contribution to public health at the local, national and international levels deserves recognition by their peers and the general public. The fact they form an important community should also be better acknowledged to reinforce the visibility of the high quality of their academic competencies and achievements.

For that purpose, SSPH+ intends to distinguish the most active and experienced of those experts with the title of « SSPH+ Fellow » as a sign of recognition but also as a way to better identify the real expertise existing in Switzerland in the field of public health.

Constituting a unique pool of public health experts in Switzerland, the “SSPH+ Fellows” will encourage communication and exchanges between the academic community and all stakeholders in the field of public health, especially the decision and policy makers and the competent authorities.
