INTERESTING FACTS ABOUT THE LSS:

Established in 1991, the summer school has a long and successful history focused on public health impact around the globe.

In 2023 the LSS welcomed 191 participants from 57 nations and 46 facilitators from 5 continents.

Being part of the LSS, means being part of a community where people from all over the world come together to exchange knowledge, experiences, and research, build new networks and strengthen established ones, and improve capacities for public health impact.

This year's courses are focused on: **NCDs, Participatory-Methods, Evidence Synthesis, Ethics in Public Health, Systems Thinking, Health in Emergencies, Impact Evaluation, Digital Epidemiology, Project Management, Health Behaviors, Knowledge Exchange, Health Financing, Meta Analysis, Implementation Science, Digital Health, and Migration.**
