

General information

Courses of the IGC are initiated and supported by the Academic Board of the IGC.

All SSPH+ Faculty Members are invited to suggest topics for new courses to the Academic Board.

If selected, the Academic Board will start a call inviting all SSPH+ Faculty Members to submit topic-specific course proposals.

The Academic Board evaluates the proposals and decides on the implementation. The selected course will initially be offered as part of the program for five editions. Please note that the Academic Board reserves the right to discontinue the course earlier if it fails to meet demand or expectations. After the initial five editions, a new call for proposals will be issued, and the current facilitator is welcome to reapply.

Send the course proposal by email to the IGC manager	awalser@ssphplus.ch
