

Qualitative Health Research: ADVANCED module: Appraising qualitative health research

Facilitator

Rose-Anna Foley, PhD

Haute École de Santé Vaud (HESAV); Unisanté - Department of Epidemiology and health systems (DESS), Université de Lausanne

Christina Akré, PhD

Unisanté - Department of Epidemiology and health systems (DESS), Université de Lausanne

Description

Qualitative health research helps grasp behaviors and practices of patients and populations at risk, combined with the meaning health professionals and stakeholders give to their practices and actions, those both being known to underlie and influence health practices.

By giving particular attention to the context of an intervention, qualitative research is particularly effective for evaluating programs and practices in the public health field. It allows to reflect on the broader health care context, with its socio- cultural and historical features.

Objectives

In continuation of the basic module and addressed to (semi) experienced researchers in qualitative research, this advanced module will be based on the coding analysis process with discussion building and derived theory, as well as quality criteria discussions. Participants will categorize and hierarchize the emerged themes and will be led through the whole analysis process, from classification and contrasting, to the writing of results and discussion of qualitative dissertations and manuscripts.

Learning outcomes: discuss and appraise quality in research protocols and papers; conduct a qualitative study themselves, as well as put emphasis on the importance of the theoretical framework underlying the interpretive process of researchers.

Dates	06 – 07 December 2023										
Eligibility	Open to students who followed the basic module, and experimented researchers in the health field										
Course Structure	Presentations, guided discussions, small assignment during the course, multimedia course material, group exercises, class room experience of conducting qualitative research, use of material brought by participants, interactive sessions										
Assessment	Participants will present in groups the full protocol they determined, and receive feedback from their peers and from the facilitators.										
Credits	1 ECTS Preparation work: 4 h; Contact time: 16 h; Follow up: 6 h (1 ECTS corresponds to appr. 25-30 hours workload)										
Location	Unisanté and Haute École de Santé Vaud, Lausanne										
Course Fees	<table border="1"> <thead> <tr> <th></th> <th>1 ECTS</th> </tr> </thead> <tbody> <tr> <td>SSPH+IGC Students</td> <td>30 CHF</td> </tr> <tr> <td>Postdocs from SSPH+ partner institutes</td> <td>30 CHF</td> </tr> <tr> <td>External PhD students and MD students</td> <td>500 CHF</td> </tr> <tr> <td>Others</td> <td>1'000 CHF</td> </tr> </tbody> </table>		1 ECTS	SSPH+IGC Students	30 CHF	Postdocs from SSPH+ partner institutes	30 CHF	External PhD students and MD students	500 CHF	Others	1'000 CHF
	1 ECTS										
SSPH+IGC Students	30 CHF										
Postdocs from SSPH+ partner institutes	30 CHF										
External PhD students and MD students	500 CHF										
Others	1'000 CHF										
Registration	www.conftool.com/ssph-phd-courses2023										
Deadline for Registration	06 November 2023
